

REMARKS

In the Office Action Claim 1 stands rejected 35 U.S.C. §112 second paragraph as failing to define the invention in a manner required by the statute. Further, the drawings, Abstract and Specification are objected to because of informalities. Claim 1 has been canceled and the subject matter the Applicant regards as the invention has been rewritten into Claims 2 and 3. The Abstract and Specification have been amended and the Applicant respectfully requests that attached Fig. 3 be entered as a matter of record. Figure 3 was submitted with the original filing of the patent application but did not contain a figure number. No new matter has been added to the Specification or to the drawing of Fig. 3.

In view of the foregoing Amendment to the Claims and associated remarks, Applicant respectfully requests the Examiner pass this case to issue. If, in the opinion of the Examiner, a telephone conference would expedite the issuance of this application, the Examiner is invited to call the undersigned Agent.

Respectfully submitted,
